

## PROJECT 10073 RECORD

1. DATE - TIME GROUP 6 June 66 07/0255Z	2. LOCATION Tyler, Texas
3. SOURCE Civilian	10. CONCLUSION <u>Possible</u> (AIRCRAFT) <i>Prob. Jet</i>
4. NUMBER OF OBJECTS Two	
5. LENGTH OF OBSERVATION Not Reported	11. BRIEF SUMMARY AND ANALYSIS Observer noted two star like objects that were going east fast as a jet, some 30,000 feet or so high, and on the zenith. The smaller light traveled on the south side of the larger object across the sky, drawing closer, lagging behind and finally to the north side and out of sight. Description is consistent with that of an aircraft flying at a high altitude with sun reflecting off the fuselage.
6. TYPE OF OBSERVATION Ground-Visual	
7. COURSE East	
8. PHOTOS <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	
9. PHYSICAL EVIDENCE <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

Reference the attached letter from Mrs. [REDACTED] regarding an observation which she made on 6 June 1966. The following is a suggested reply:

a. Dear [REDACTED]

Thankyou for your letter of 6 June 1966. Your observation is indeed interesting and will be filed along with other cases of interesting heavenly phenomena. Your interest in Air Force matters is appreciated.

Sir :

June 6<sup>th</sup>, 1966, 8:55 p.m., 2 star-like objects was going east, fast as a jet, some 30,000 or so high, and on the zenith. The smaller one traveled on the south side of the larger object across the sky, drawing closer, lagging behind and finally to the north side and out of sight at about 90° or midway.

I have some 18 or 20 articles on UFO, including one about Sir England. Have written some interesting encounters of heavenly phenomenals of my own. No emotional circumstance, just awed-amazement, and interested. Thank you for giving us the opportunity to say what we have observed. Thank you.

Respectfully,

[REDACTED]

address above.
